

**Our Educational Mission Statement:**

The mission of **WinCertification** is to provide innovative, cutting edge technical training.

Our training goal is to successfully educate and prepare individuals seeking a career in Information Technology and Business Office Applications for certification in a variety of computer environments. Our unique way of training provides the individual with the highest level of flexibility, providing anytime anywhere learning, which is in high demand by students who need to remain in the workforce while they train.

**WinCertification** will help meet the growing demand for technical professionals and assist individuals in reaching their high tech career goals.

**In keeping with our mission and purpose, WinCertification strives to:**

- Educate and train students with the current equipment found in today's automated offices.
- Prepare students to pass the vendor certification tests and attain the certifications that are in demand with employers.
- Assist students in developing their technical skills to meet industry standards.
- Provide students with the most skilled and experienced staff available who are devoted to the personal and career development of every student.
- Offer job placement assistance services in the pursuit of securing employment.
