 - **Skype:** Download skype. Instructor will send email notification / Free with office 365
 - **Google Chrome:** Download Google chrome: <https://www.google.com/chrome/browser/desktop/index.html> / Free
 - **Google Account:** Create a Google account // Class online course is on Google sites / Instructor will send an email link
 - **Adobe reader:** Download adobe reader <https://get.adobe.com/reader/> /Free
 - **Dropbox:** Download Dropbox <https://www.dropbox.com/> /Free
-

Suggested PC Hardware Recommendation:

- Intel Core i5 or better
- 8GB of RAM or more
- 500 Gigabyte Hard Drive or higher
- USB ports (at least 2)
- WiFi wireless networking on laptops
- Sound card, and speakers or headphones
- 1024 by 768 or higher resolution monitor
- Printer
- 100mbit or 1Gbit Ethernet Adapter for Broadband

Operating System:

- Microsoft Windows 7 or 10
- Apple: Apple 10

Note: Apple Macintosh Computers running Windows 7- Late model Macs have the ability to run Windows 7 natively, either on a separate partition of the hard drive or in a virtual machine. Students planning on installing Windows 7 on their Macs should be aware that this will take up a minimum of 30GB of space or a recommended 60GB and should purchase a hard drive with this in mind. Once Windows 7 is installed the OSX disk that came with your Mac contains all the necessary drivers and applications to allow for Windows 7 to function properly with your hardware.

Other Applications:

- Antivirus (Microsoft Security Essentials recommended)
- Updated Java and Flash
- Firefox browser

Internet

- Broadband connection to the Internet and related equipment (Generally supplied by the service provider). Cable or DSL highly recommended.

Memory stick /Thumb drive

- 32 gig or higher
